Allowable Subject Matter

2. Claims 10-15 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claim 10 is directed towards a apparatus for the automatic setting of fuel injectors. The prior art does not teach an apparatus comprising means for a handling injectors, means for providing high pressure, means for forming an electrical connection, and means for screwing to adjust the injector automatically. See United States Patents 3,847,011 to Errett, 5,226,311 to Scourtes, 6,003,790 to Fly, 6,260,404 to Aota *et al.*, and International Patent Application Publication WO 91/05952 to Gary. These references teach the setting and calibration of injectors, but not with the combination of means in the applicant's claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
